

**Question # 2 of 10 ( Start time: 09:30:13 PM, 17 August 2020 )**

Meaning of memory to a 9th class student is:

**Select the correct option**

<input type="radio"/>	Childhood memories
<input type="radio"/>	Finding keys
<input checked="" type="radio"/>	Remembering science formulas
<input type="radio"/>	Remembering birthdays of friends

**Question # 3 of 10 ( Start time: 09:31:33 PM, 17 August 2020 )**

The **psychological time** of STM is from \_\_\_\_\_.

**Select the correct option**

<input checked="" type="radio"/>	1 second to 20 seconds
<input type="radio"/>	1 second to 15 seconds
<input type="radio"/>	1 second to 25 seconds
<input type="radio"/>	1 second to 18 seconds

Question # 4 of 10 ( Start time: 09:32:41 PM, 17 August 2020 )

Which of the following memory has infinite capacity store house but most of which is not being used

Select the correct option

<input type="radio"/>	Short term working memory
<input checked="" type="radio"/>	Long term memory
<input type="radio"/>	Sensory memory
<input type="radio"/>	Visual memory

**Question # 6 of 10 ( Start time: 09:35:06 PM, 17 August 2020 )**

Which of the following is a part and parcel of activation mechanism of short term working memory?

Select the correct option

<input checked="" type="radio"/>	Attention
<input type="radio"/>	Transient
<input type="radio"/>	Rehearsal
<input type="radio"/>	Reshaping

Question # 7 of 10 ( Start time: 09:35:57 PM, 17 August 2020 )

Which of the following is the characteristic of amnesia?

Select the correct option

- |                                  |   |
|----------------------------------|---|
| <input type="radio"/>            | Loss of most of the information held in both short-term and long-term memory stores |
| <input checked="" type="radio"/> | Loss of memory for names and places   |
| <input type="radio"/>            | Loss of memory for people's faces   |
| <input type="radio"/>            | Loss of most of the long-term memory, with a fairly intact short-term memory        |

Question # 8 of 10 ( Start time: 09:37:13 PM, 17 August 2020 )

Which of the following interference highlights the findings that earlier occurring information interferes with later

Select the correct option

- |                                  |                          |
|----------------------------------|--------------------------|
| <input checked="" type="radio"/> | Proactive interference   |
| <input type="radio"/>            | Behavioral interference  |
| <input type="radio"/>            | Decay interference       |
| <input type="radio"/>            | Retroactive interference |

**PSY504 Quiz No.02**

**Question # 9 of 10 ( Start time: 09:38:27 PM, 17 August 20**

After 20 seconds what we can remember is:

**Select the correct option**

<input type="radio"/>	Short term memory
<input type="radio"/>	Working memory
<input checked="" type="radio"/>	Long term memory
<input type="radio"/>	Sensory memory

Question # 10 of 10 ( Start time: 09:39:00 PM, 17 August 2020 )

In which of following type of memory we can remember meaning of things?

Select the correct option

- |                                  |                   |
|----------------------------------|-------------------|
| <input type="radio"/>            | Working memory    |
| <input checked="" type="radio"/> | Semantic memory   |
| <input type="radio"/>            | Episodic memory   |
| <input type="radio"/>            | Procedural memory |

PSY504: Quiz No.02

Question # 7 of 10 ( Start time: 09:20:10 PM, 17 August 2020 )

Which of the following statement is TRUE about long term memory?

Select the correct option

- |                                  |  |
|----------------------------------|--|
| <input checked="" type="radio"/> | Memory that lasts more than 20 seconds is long term memory     |
| <input type="radio"/>            | Memory that lasts more than 5 seconds is long term memory      |
| <input type="radio"/>            | All decision making is done in long term memory                |
| <input type="radio"/>            | We can recall everything that has entered our long term memory |

Question # 1 of 10 ( Start time: 09:13:43 PM, 17 August 2020 )

What refers to activating parts of particular representations or associations in memory just before carrying out an action or task?

Select the correct option

- |                       |              |
|-----------------------|--------------|
| <input type="radio"/> | Priming      |
| <input type="radio"/> | Linkage      |
| <input type="radio"/> | Relationship |
| <input type="radio"/> | Connection   |

PSY504: Quiz No.02

Question # 2 of 10 ( Start time: 09:15:14 PM, 17 August 2020 )

Mayer and Schvaneveldt performed classic demonstration of \_\_\_\_\_

Select the correct option

- |                                  |                          |
|----------------------------------|--------------------------|
| <input type="radio"/>            | Support paradigm         |
| <input type="radio"/>            | Partial-report-paradigm  |
| <input checked="" type="radio"/> | Associative priming      |
| <input type="radio"/>            | Dichotic listening tasks |

PSY504 Quiz No.02

Question # 8 of 10 ( Start time: 09:21:33 PM, 17 August 2020 )

1, 2 buckle my shoe. 3, 4 shut the door And 5, 6 pick-up sticks is an example of

Select the correct option

- |                                  |                |
|----------------------------------|----------------|
| <input type="radio"/>            | Elaborate      |
| <input type="radio"/>            | PQ4R Method    |
| <input type="radio"/>            | Method of Loci |
| <input checked="" type="radio"/> | Chunking       |

Question # 9 of 10 ( Start time: 09:22:42 PM, 17 August 2020 )

Which of the following is NOT a recognized theory of forgetting?

Select the correct option

- |                                  |                                 |
|----------------------------------|---------------------------------|
| <input type="radio"/>            | Interference theory             |
| <input type="radio"/>            | Trace decay theory              |
| <input checked="" type="radio"/> | Hierarchy theory                |
| <input type="radio"/>            | Cue-dependent forgetting theory |

Question # 3 of 10 ( Start time: 09:16:07 PM, 17 August 2020 )

The span of immediate memory was identified in 1956 to be 7 (plus or minus 2) by whom?

Select the correct option

- |                                  |          |
|----------------------------------|----------|
| <input type="radio"/>            | Baddeley |
| <input type="radio"/>            | Bartlett |
| <input checked="" type="radio"/> | Miller   |
| <input type="radio"/>            | Cherry   |

SY504: Quiz No.02

Question # 10 of 10 ( Start time: 09:23:14 PM, 17 August 2020 )

Keeping in mind the working memory concept, identify the level where every thing is happening at the moment?

Select the correct option

- |                       |                           |
|-----------------------|---------------------------|
| <input type="radio"/> | Short term working memory |
| <input type="radio"/> | Long term memory          |
| <input type="radio"/> | Sensory memory            |
| <input type="radio"/> | Mind                      |

Question # 4 of 10 ( Start time: 09:17:09 PM, 17 August 2020 )

Which of the following theory presents that forgetting is due to passage of time?

Select the correct option

- |                                  |                        |
|----------------------------------|------------------------|
| <input checked="" type="radio"/> | Decay Theory           |
| <input type="radio"/>            | Interference Theory    |
| <input type="radio"/>            | Alan Baddeley's Theory |
| <input type="radio"/>            | Forgetting Theory      |

Question # 5 of 10 ( Start time: 09:17:39 PM, 17 August 2020 )

Who concluded that when items are similar they interfere with one another but when they are different they are more readily recalled?

Select the correct option

Keppel & Underwood

Born & Underwood

Clifford & Berry

Born & Allen

Question # 6 of 10 ( Start time: 09:18:46 PM, 17 August 2020 )

The information in the long term memory is stored through the process of

Select the correct option

<input checked="" type="radio"/>	Encoding
<input type="radio"/>	Attention
<input type="radio"/>	Chunking
<input type="radio"/>	Reshaping

PSY504: Quiz No.02

Question # 9 of 10 ( Start time: 09:03:33 PM, 17 August 2020 )

Peterson and Peterson concluded that information in STM decays very quickly in:

Select the correct option

- |                                  |            |
|----------------------------------|------------|
| <input type="radio"/>            | 17 seconds |
| <input type="radio"/>            | 20 seconds |
| <input checked="" type="radio"/> | 18 seconds |
| <input type="radio"/>            | 19 seconds |

PSY504 Quiz No.02

Question # 10 of 10 ( Start time: 09:04:27 PM, 17 August 2020 )

According to Alan Baddeley's model of working memory, visual memories pertain to which of the following?

Select the correct option

- |                                  |                          |
|----------------------------------|--------------------------|
| <input type="radio"/>            | Executive control system |
| <input type="radio"/>            | Phonological loop system |
| <input checked="" type="radio"/> | Visio-spatial sketch pad |
| <input type="radio"/>            | Imagery                  |

Question # 8 of 10 ( Start time: 09:02:27 PM, 17 August 2020 )

Information in short term memory is lost rapidly, how could we retain it in working memory for comparatively longer time?

Select the correct option

- Through rehearsal
- Through more attention
- Through recognition
- Through displacement

SY504:Quiz No.02

Question # 7 of 10 ( Start time: 09:01:38 PM, 17 August 2020 )

Which of the following has a task to achieve activation through controlled retrieval?

Select the correct option

<input type="radio"/>	Phonological loop
<input checked="" type="radio"/>	Central executive
<input type="radio"/>	Short term memory
<input type="radio"/>	Coding

PSY504: Quiz No.02

Question # 5 of 10 ( Start time: 08:59:56 PM, 17 August 2020 )

Analyze what is the most important reason why information in short-term memory is lost?

Select the correct option

- |                                  |  |
|----------------------------------|--|
| <input checked="" type="radio"/> | Displacement because of limited capacity |
| <input type="radio"/>            | Our inability to retrieve it             |
| <input type="radio"/>            | Our inability to chunk                   |
| <input type="radio"/>            | Our inability to pay attention           |

PSY504 Quiz No 02

Question # 4 of 10 ( Start time: 08:58:37 PM, 17 August 2020 )

In which of the following model the prominent role was given to Central Executive?

Select the correct option

- |                                  |                  |
|----------------------------------|------------------|
| <input type="radio"/>            | Clifford's model |
| <input type="radio"/>            | Born's model     |
| <input type="radio"/>            | Keppel's model   |
| <input checked="" type="radio"/> | Engle's model    |

PSY504: Quiz No.02

Question # 6 of 10 ( Start time: 09:00:32 PM, 17 August 2020 )

According to Cognitive Psychologists which of the following is "here and now" memory?

Select the correct option

- |                                  |                           |
|----------------------------------|---------------------------|
| <input checked="" type="radio"/> | Short term working memory |
| <input type="radio"/>            | Long term memory          |
| <input type="radio"/>            | Sensory memory            |
| <input type="radio"/>            | Iconic memory             |

PSY504 Quiz No.02

Question # 5 of 10 ( Start time: 06:09:44 PM, 16 August 2020 )

What is the process of transferring information from short term memory to long term memory through codes?

Select the correct option

- |                                  |             |
|----------------------------------|-------------|
| <input checked="" type="radio"/> | Encoding    |
| <input type="radio"/>            | Rehearsal   |
| <input type="radio"/>            | Recognition |
| <input type="radio"/>            | Priming     |

PSY504: Quiz No.02

Question # 3 of 10 ( Start time: 06:07:37 PM, 16 August 2020 )

A source node has a fixed capacity for emitting.

Select the correct option

<input checked="" type="radio"/>	Activation
<input type="radio"/>	Priming
<input type="radio"/>	Processing
<input type="radio"/>	Association

PSY504: Quiz No.02

Question # 2 of 10 ( Start time: 08:56:12 PM, 17 August

Who presented a model of working memory?

Select the correct option

- |                                  |                   |
|----------------------------------|-------------------|
| <input type="radio"/>            | Atkinson Baddeley |
| <input checked="" type="radio"/> | Alan Baddeley     |
| <input type="radio"/>            | Marlatt Baddeley  |
| <input type="radio"/>            | Meyer Baddeley    |

SY504: Quiz No.02

Question # 3 of 10 ( Start time: 08:57:09 PM, 17 August 2020 )

Which of the following statement about chunking is WRONG?

Select the correct option

- |                                  |  |
|----------------------------------|--|
| <input type="radio"/>            | We can learn up to 21 digits at a time                           |
| <input type="radio"/>            | Chunking is a way to increase short term memory's capacity       |
| <input type="radio"/>            | For learning words, limit is seven                               |
| <input checked="" type="radio"/> | Capacity to learn sentence is much higher than letters and words |

PSY504: Quiz No.02

Question # 6 of 10 ( Start time: 06:11:12 PM, 16 August 2020 )

Which of the following is same as short term memory?

Select the correct option

- |                                  |                   |
|----------------------------------|-------------------|
| <input checked="" type="radio"/> | Working Memory    |
| <input type="radio"/>            | Episodic Memory   |
| <input type="radio"/>            | Procedural Memory |
| <input type="radio"/>            | Semantic Memory   |

PSY504: Quiz No.02

Question # 7 of 10 ( Start time: 06:12:12 PM, 16 August 2020 )

John Miller was a great Cognitive Psychologist who proposed:

Select the correct option

- |                                  |                 |
|----------------------------------|-----------------|
| <input type="radio"/>            | Magic number 11 |
| <input checked="" type="radio"/> | Magic number 7  |
| <input type="radio"/>            | Magic number 5  |
| <input type="radio"/>            | Magic number 17 |

PSY504: Quiz No.02

Question # 8 of 10 ( Start time: 06:13:49 PM, 16 August 2020 )

Which of the following pertains to the philosophical question that what is the duration of 'here and now'?

Select the correct option

- |                                  |                    |
|----------------------------------|--------------------|
| <input checked="" type="radio"/> | Psychological time |
| <input type="radio"/>            | Reaction time      |
| <input type="radio"/>            | Attention time     |
| <input type="radio"/>            | Rehearsal time     |

PSY504:Quiz No.02

Question # 9 of 10 ( Start time: 06:15:16 PM, 16 August 2020 )

Which of the following memory lasts for more than 20 seconds?

Select the correct option

<input checked="" type="radio"/>	Long term memory
<input type="radio"/>	Short term memory
<input type="radio"/>	Working memory
<input type="radio"/>	Central executive

PSY504:Quiz No.02

Question # 10 of 10 ( Start time: 06:16:10 PM, 16 August 2020 )

Who concluded after experimentations that loss of memory is due to interference?

Select the correct option

- |                                  |                              |
|----------------------------------|------------------------------|
| <input type="radio"/>            | Peterson and Peterson (1959) |
| <input checked="" type="radio"/> | Waugh & Norman (1965)        |
| <input type="radio"/>            | Sternberg (1969)             |
| <input type="radio"/>            | Rogers (1970)                |

PSY504: Quiz No.02

Question # 10 of 10 ( Start time: 08:20:23 PM, 17 August 2020 )

Which of the following is regarded as permanent store of information?

Select the correct option

- |                                  |                   |
|----------------------------------|-------------------|
| <input checked="" type="radio"/> | Long term memory  |
| <input type="radio"/>            | Short term memory |
| <input type="radio"/>            | Childhood memory  |
| <input type="radio"/>            | Babyhood memory   |

Question # 4 of 10 ( Start time: 08:11:51 PM, 17 August 2020 )

Long-term memory for autobiographical events is called what?

Select the correct option

<input type="radio"/>	Echoic memory
<input type="radio"/>	Semantic memory
<input type="radio"/>	Procedural memory
<input checked="" type="radio"/>	Episodic memory

PSY504: Quiz No.02

Question # 6 of 10 ( Start time: 08:14:22 PM, 17 August 2020 )

Who presented an important model of short term working memory?

Select the correct option

- |                                  |                     |
|----------------------------------|---------------------|
| <input type="radio"/>            | Meyer & Ross        |
| <input type="radio"/>            | Brewer & Treyns     |
| <input checked="" type="radio"/> | Atkinson & Shiffrin |
| <input type="radio"/>            | Marlatt & Gordon    |

PSY504 Quiz No. 02

Question # 7 of 10 ( Start time: 08:17:34 PM, 17 August 2020 )

Which of the following statements about short-term memory is TRUE?

Select the correct option

- |                                  |  |
|----------------------------------|--|
| <input type="radio"/>            | It is difficult to distinguish from the later stages of perception     |
| <input type="radio"/>            | It has infinite capacity that can be increased through rehearsal       |
| <input checked="" type="radio"/> | It receives both new information and information from long-term-memory |
| <input type="radio"/>            | It stores unrehearsed information                                      |

PSY504: Quiz No.02

Question # 8 of 10 ( Start time: 08:18:46 PM, 17 August 2020 )

A relatively permanent storage of information is known as:

Select the correct option

<input checked="" type="radio"/>	Long term memory
<input type="radio"/>	Short term memory
<input type="radio"/>	Sensory memory
<input type="radio"/>	Working memory

PSY504 Quiz No.02

Question # 9 of 10 ( Start time: 08:19:18 PM, 17 August 2020 )

Meaning of memory to an old man is \_\_\_\_\_.

Select the correct option

<input type="radio"/>	Fishing skills
<input type="radio"/>	Operating computer
<input checked="" type="radio"/>	Finding keys
<input type="radio"/>	Shoe lacing
