

Question # 10 of 10 (**start time: 09:13:50 PM, 05 December 2022**)

Which type of signals are weakened by the attenuator?

▶ Select the correct option

<input type="radio"/>	Low rhythm signals
<input type="radio"/>	High pitched signals correct 
<input type="radio"/>	Unattended signals
<input type="radio"/>	Broad signals

Question # 9 of 10 (start time: 09:12:45 PM, 05 December 2022)

Who wrote a book titled "cognitive psychology" in 1957.

Select the correct option

<input type="radio"/>	Triesman
<input type="radio"/>	Sperling
<input type="radio"/>	Barnet
<input checked="" type="radio"/>	Neisser

correct 

Question # 8 of 10 (Start time: 09:11:20 PM, 05 December 2022)

The field of ontology deals with the study of conceptions of:

Select the correct option

<input checked="" type="radio"/>	Thinking
<input type="radio"/>	Action
<input type="radio"/>	Reality
<input type="radio"/>	Behavior

correct 

PSY504 - Cognitive Psychology (Quiz 1)

Question # 5 of 10 (Start time: 09:08:38 PM, 05 December 2022)

Who devised the term "iconic memory" for short term visual memory?

Select the correct option

<input type="radio"/>	Sperling
<input type="radio"/>	Barnet
<input type="radio"/>	Triesman
<input checked="" type="radio"/>	Neisser

correct 

Question # 6 of 10 (start time: 09:09:48 PM, 05 December 2022)

All of the following have been used as a metaphor to explain the complex phenomenon of attention except:

select the correct option

- | | |
|----------------------------------|-------------|
| <input checked="" type="radio"/> | Computer |
| <input type="radio"/> | Spot light |
| <input type="radio"/> | Narrow lane |
| <input type="radio"/> | Filter |

correct

Question # 3 of 10 (**start time: 09:06:02 PM, 05 December 2022**)

Sperling's experiments indicate the existence of a brief:

Select the correct option

<input type="radio"/>	Tactual sensory store
<input checked="" type="radio"/>	Visual sensory store <i>correct</i> 
<input type="radio"/>	Kinesthetic sensory store
<input type="radio"/>	Audio sensory store

PSY504 - Cognitive Psychology (Quiz 1)

Question # 2 of 10 (Start time: 09:04:42 PM, 05 December 2022)

The activities of _____ overlap with those of a clinical psychologist.

▶ Select the correct option

<input type="radio"/>	Clinical social workers
<input type="radio"/>	Psychiatrists not sure correct 
<input type="radio"/>	Forensic psychologists
<input type="radio"/>	Counseling psychologists

Question # 1 of 10 (start time: 09:03:46 PM, 05 December 2022)

Tot

Which branch of psychology deals with the processes involved in thinking, acquisition and storage of knowledge?

Select the correct option

- | | |
|----------------------------------|-------------------------|
| <input type="radio"/> | Positive Psychology |
| <input type="radio"/> | Experimental Psychology |
| <input checked="" type="radio"/> | Cognitive Psychology |
| <input type="radio"/> | Psychophysics |
- correct 

Question # 10 of 10 (Start time: 08:57:58 PM, 05 December 2022)

Which one of the following is true about attention?

Select the correct option

<input type="radio"/>	It is a multi-minded sense
<input checked="" type="radio"/>	It is a single-minded sense correct 
<input type="radio"/>	It is a double-minded sense
<input type="radio"/>	It is a broad sense

Question # 7 of 10 (start time: 08:55:06 PM, 05 December 2022)

Which of the following metaphor explains the attention as a narrow lane having not enough space to flow?

Select the correct option

<input checked="" type="radio"/>	Bottle Neck
<input type="radio"/>	Electricity Wires
<input type="radio"/>	Traffic
<input type="radio"/>	Spot Light

correct 

Question # 8 of 10 (Start time: 08:56:11 PM, 05 December 2022)

Total Marks: 1

Criticism of which of the following techniques led psychology to its opposite extreme and the behavioral school took over?

▶ Select the correct option

<input type="radio"/>	Intrrospection
<input type="radio"/>	Free association
<input type="radio"/>	Study of unconscious
<input type="radio"/>	Catharsis

correct 

Question # 9 of 10 (**start time: 08:57:32 PM, 05 December 2022**)

Norman tried to explain that attention is _____.

Select the correct option

<input type="radio"/>	Early selector
<input type="radio"/>	Middle selector
<input checked="" type="radio"/>	Late selector correct 
<input type="radio"/>	Surface selector

Which of the following technique of studying brain is considered the safest and is sensitive to change in living brain?

Select the correct option

- | | |
|----------------------------------|---------------|
| <input type="radio"/> | MRI |
| <input type="radio"/> | X-rays |
| <input checked="" type="radio"/> | FMRI |
| <input type="radio"/> | Neuro-imaging |
- correct** 

Question # 10 of 10 (start time: 12:31:29 AM, 06 December 2022)

Two solid neurons are connected with each other by a "fluid bridge" which is known as:

▶ Select the correct option

- | | |
|-----------------------|------------------|
| <input type="radio"/> | Synapse |
| <input type="radio"/> | Axon |
| <input type="radio"/> | Ganglia |
| <input type="radio"/> | Neurotransmitter |
- correct 

PSY504 - Cognitive Psychology (Quiz 1)

Question # 9 of 10 (start time: 12:31:10 AM, 06 December 2022)

The auditory information in the ear comes in the form of ----- waves.

Select the correct option

<input type="radio"/>	X-ray
<input type="radio"/>	Radio
<input type="radio"/>	Ultraviolet
<input checked="" type="radio"/>	Sound

correct 

Question # 8 of 10 (Start time: 12:30:23 AM, 06 December 2022)

The complex name for thalamus is:

Select the correct option

<input type="radio"/>	dorsal angulate cortex
<input type="radio"/>	Medial geniculate nucleus
<input type="radio"/>	Lateral lemniscus
<input type="radio"/>	Basal ganglia

Question # 5 of 10 (start time: 12:27:49 AM, 06 December 2022)

Who discovered on-off and off-on cells?

Select the correct option

<input checked="" type="radio"/>	Kuffler correct 
<input type="radio"/>	Norman
<input type="radio"/>	Sperling
<input type="radio"/>	Broadbent

Question # 6 of 10 (**start time: 12:28:20 AM, 06 December 2022**)

Sperling's method was called:

Select the correct option

<input type="radio"/>	Moderate-report procedure
<input type="radio"/>	Secondary-report procedure
<input type="radio"/>	Tertial-report procedure
<input checked="" type="radio"/>	Partial-report procedure correct 

PSY504 - Cognitive Psychology (Quiz 1)

Question # 7 of 10 (Start time: 12:29:16 AM, 06 December 2022)

Which of the following is responsible to connect two neurons with each other?

▶ select the correct option

Ganglia

Cerebellum

Axon

Synapse

correct

Question # 4 of 10 (Start time: 12:26:31 AM, 06 December 2022)

Network of neurons in brain can be considered as:

▶ Select the correct option

<input type="radio"/>	Chemical level description
<input type="radio"/>	Hardware level description correct 
<input type="radio"/>	Software level description
<input type="radio"/>	Metaphysical description

Question # 3 of 10 (start time: 12:25:56 AM, 06 December 2022)

Tiny branches connected to the cell body are called:

select the correct option

<input checked="" type="radio"/>	Dendrites correct 
<input type="radio"/>	Synapses
<input type="radio"/>	Neural branches
<input type="radio"/>	Terminal buttons

Question # 10 of 10 (Start time: 12:21:01 AM, 06 December 2022)

Who was the first person to present a coherent theory of how knowledge is acquired and retained?

Select the correct option

<input checked="" type="radio"/>	Plato
<input type="radio"/>	Noam Chomsky
<input type="radio"/>	Ulric Neisser
<input type="radio"/>	Aristotle

correct 

Question # 7 of 10 (Start time: 12:18:10 AM, 06 December 2022)

Question # 4 of 10 (start time: 12:14:59 AM, 06 December 2022)

Norman tried to explain that attention is _____.

Select the correct option

<input type="radio"/>	Early selector
<input type="radio"/>	Surface selector
<input checked="" type="radio"/>	Late selector correct 
<input type="radio"/>	Middle selector

Question # 3 of 10 (Start time: 12:14:09 AM, 06 December 2022)

What was studied by Kuffler in order to understand how sensations transform into perception?

Select the correct option

<input type="radio"/>	Neurons
<input type="radio"/>	Cerebrum
<input type="radio"/>	Visual cortex
<input checked="" type="radio"/>	Ganglion cells

correct 

Question # 1 of 10 (Start time: 11:45:32 PM, 05 December 2022)

Sperling's method was called:

Select the correct option

<input type="radio"/>	Secondary-report procedure
<input type="radio"/>	Partial-report procedure correct 
<input type="radio"/>	Tertial-report procedure
<input type="radio"/>	Moderate-report procedure

PSY504 - Cognitive Psychology (Quiz 1)

Question # 9 of 10 (**start time: 11:11:58 PM, 05 December 2022**)

At what level most of the information is discarded in few seconds?

Select the correct option

Episodic memory

Short term memory

Semantic memory

Sensory memory

correct

PSY504 - Cognitive Psychology (Quiz 1)

Question # 10 of 10 (start time: 11:13:04 PM, 05 December 2022)

Who devised the term "iconic memory" for short term visual memory?

Select the correct option

<input checked="" type="radio"/>	Neisser correct 
<input type="radio"/>	Barnet
<input type="radio"/>	Sperling
<input type="radio"/>	Triesman

Question # 8 of 10 (**Start time: 11:11:28 PM, 05 December 2022**)

We have approximately _____ neurons in the brain.

Select the correct option

<input type="radio"/>	80 million
<input checked="" type="radio"/>	70 billion correct 
<input type="radio"/>	70million
<input type="radio"/>	60 million

Question # 7 of 10 (**start time: 11:10:13 PM, 05 December 2022**)

Which animal was used by Hubel & Wiesel in their experiments to study the visual cortex?

Select the correct option

<input checked="" type="radio"/>	Cats
<input type="radio"/>	Apes
<input type="radio"/>	Monkey
<input type="radio"/>	Rat

correct 

Question # 6 of 10 (Start time: 11:08:46 PM, 05 December 2022)

Broadbent's model does not select information on the basis of which one of the following principle?

▶ Select the correct option

- | | |
|----------------------------------|---------------------------------|
| <input type="radio"/> | Remembering |
| <input type="radio"/> | With help of the memory systems |
| <input checked="" type="radio"/> | On the basis of meaning |
| <input type="radio"/> | Attention |
- correct** 

Question # 1 of 10 (**Start time: 11:05:06 PM, 05 December 2022**)

The dichotic listening experiments were conducted by:

Select the correct option

<input type="radio"/>	Charles and Kaplean
<input type="radio"/>	Henry and Murray
<input type="radio"/>	Donald and Titchener
<input checked="" type="radio"/>	Cherry and Moray

correct 

Question # 3 of 10 (Start time: 11:06:07 PM, 05 December 2022)

The most important thing in Broadbent's model is:

Select the correct option

<input checked="" type="radio"/>	Selective filter correct 
<input type="radio"/>	Early selection filter
<input type="radio"/>	Late selection filter
<input type="radio"/>	Loudness selection filter

PSY504 - Cognitive Psychology (Quiz 1)

Question # 4 of 10 (start time: 11:06:42 PM, 05 December 2022)

Which of the following is responsible to connect two neurons with each other?

▶ Select the correct option

Axon

Ganglia

Cerebellum

Synapse

correct

Question # 1 of 10 (start time: 01:12:39 AM, 06 December 2022)

Numerous metaphors can help us to think about the limited-resource characteristics of:

Select the correct option

<input checked="" type="radio"/>	Attention
<input type="radio"/>	Noise
<input type="radio"/>	Touching
<input type="radio"/>	Perception

correct 

Attention and Effort was a major work of whom?

Select the correct option

<input type="radio"/>	Heinz
<input checked="" type="radio"/>	Kahneman correct 
<input type="radio"/>	Johnston
<input type="radio"/>	Norman

Question # 3 of 10 (**Start time: 01:13:46 AM, 06 December 2022**)

There are _____ basic senses.

Select the correct option

<input type="radio"/>	4
<input checked="" type="radio"/>	5 correct 
<input type="radio"/>	2
<input type="radio"/>	3

Question # 8 of 10 (start time: 01:14:34 AM, 06 December 2022)

Who conducted an experiment to know that attention is an early selector or late selector?

Select the correct option

- | | |
|----------------------------------|---|
| <input type="radio"/> | Researcher |
| <input checked="" type="radio"/> | Treisman correct  |
| <input type="radio"/> | Gray |
| <input type="radio"/> | Wedderburn |

Question # 8 of 10 (Start time: 01:15:23 AM, 06 December 2022)

In dichotic listening experiment subjects wear.

Select the correct option

<input type="radio"/>	Microphone
<input checked="" type="radio"/>	Headphones correct 
<input type="radio"/>	Track ball
<input type="radio"/>	Speakers

Question # 9 of 10 (Start time: 01:15:53 AM, 08 December 2022)

Two solid neurons are connected with each other by a "fluid bridge" which is known as:

Select the correct option

- | | |
|----------------------------------|------------------|
| <input type="radio"/> | Ganglia |
| <input checked="" type="radio"/> | Neurotransmitter |
| <input type="radio"/> | Axon |
| <input type="radio"/> | Synapse |
- correct 

Question # 10 of 10 (Start time: 01:16:07 AM, 06 December 2022)

Total Marks: 1

Who presented the ground breaking paper "On verbal behavior" that shattered the simple minded behaviorist model of language designed by Skinner?

Select the correct option

<input type="radio"/>	J.B Watson
<input checked="" type="radio"/>	Noam Chomsky
<input type="radio"/>	Charles Darwin
<input type="radio"/>	Albert Bandura

correct 

Question # 3 of 10 (**Start time: 01:25:11 AM, 06 December 2022**)

Whose experiment is copy of Sperling's experiments?

Select the correct option

<input type="radio"/>	Darwin, Turvey & Crowder (1972)
<input checked="" type="radio"/>	Moray, Bates and Barnett (1965) correct 
<input type="radio"/>	Darwin, Bates & Crowder (1972)
<input type="radio"/>	Moray, Turvey and Barnett (1965)

Question # 4 of 10 (Start time: 01:25:48 AM, 06 December 2022)

What is the most special feature about information processing approach?

Select the correct option

<input type="radio"/>	The sight which enters in our system is the only information
<input type="radio"/>	The bodily sensations which enter in our system is the only information
<input type="radio"/>	Information processing is not a stage wise process
<input checked="" type="radio"/>	Information processing has stages of processing

correct 

Question # 5 of 10 (Start time: 01:27:19 AM, 06 December 2022)

Which of the following model states that attention is a lower level process?

Select the correct option

<input checked="" type="radio"/>	Early selection model correct 
<input type="radio"/>	Late selection model
<input type="radio"/>	Sperling's model
<input type="radio"/>	Norman's model

PSY504 - Cognitive Psychology (Quiz 1)

Question # 7 of 10 (Start time: 01:27:59 AM, 06 December 2022)

Attention tasks require _____ effort.

Select the correct option

<input type="radio"/>	Discrete
<input checked="" type="radio"/>	Mental correct 
<input type="radio"/>	Physical
<input type="radio"/>	Appportioned

question # 7 of 10 (start time: 01:27:59 AM, 06 December 2022)

Attention tasks require _____ effort.

Select the correct option

<input type="radio"/>	Discrete
<input checked="" type="radio"/>	Mental correct 
<input type="radio"/>	Physical
<input type="radio"/>	Apportioned

- correct** 

Question # 7 of 10 (Start time: 08:54:02 PM, 06 December 2022)

Total 1

According to Daniel Kahneman, which of the following is a conscious decision to allocate attention to certain tasks or aspects of the environment?

Select the correct option

<input type="radio"/>	Capacity
<input checked="" type="radio"/>	Monetary Intentions
<input type="radio"/>	Enduring dispositions
<input type="radio"/>	Arousal

correct 

Question # 3 of 10 (start time: 08:51:13 PM, 06 December 2022)

Total Mar

If some one tries to study that which part of the brain is related to the sense of sight, what will be the type of his/ her description?

▶ Select the correct option

<input type="radio"/>	Neural level
<input type="radio"/>	Software Level
<input type="radio"/>	Hardware Level
<input type="radio"/>	Chemical level

correct 

Click to Save Answer & Move to Next Question

Question # 7 of 10 (Start time: 09:27:26 PM, 06 December 2022)

What is meant by Flexibility of attention?

Select the correct option

Attention is not a demanding task

We divert our attention from one to many demanding tasks

We can divert our attention from one task to other

correct 

We can not divert our attention from one task to other

PSY504 - Cognitive Psychology (Quiz 1)

Question # 4 of 10 (**Start time: 09:26:00 PM, 06 December 2022**)

Epistemology is the study of:

Select the correct option

<input type="radio"/>	Thinking and its origin
<input type="radio"/>	Schema and its origin
<input checked="" type="radio"/>	Knowledge and its origin correct 
<input type="radio"/>	Behavior and its origin

Question # 3 of 10 (Start time: 09:25:07 PM, 06 December 2022)

Which of the following pertains to the philosophical question that what is the duration of "here and now"?

Select the correct option

<input type="radio"/>	Rehearsal time
<input type="radio"/>	Attention time
<input type="radio"/>	Reaction time
<input checked="" type="radio"/>	Psychological time

correct 

PSY504 - Cognitive Psychology (Quiz 1)

Question # 1 of 10 (Start time: 09:24:06 PM, 06 December 2022)

Which field views computers like humans who can solve problems and learn new things?

Select the correct option

<input type="radio"/>	Artificial Intellect
<input checked="" type="radio"/>	Artificial Intelligence correct 
<input type="radio"/>	Artificial thinking
<input type="radio"/>	Thinking machines

Question # 10 of 10 (start time: 09:41:10 PM, 07 December 2022)

Which approach mainly focuses on transformation of input of information into output?

Select the correct option

- | | |
|----------------------------------|--------------------------------|
| <input type="radio"/> | Stimulus-response model |
| <input type="radio"/> | Artificial intelligence |
| <input type="radio"/> | Sensation and perception model |
| <input checked="" type="radio"/> | Information processing model |
- correct 

PSY504 - Cognitive Psychology (Quiz 1)

Question # 4 of 10 (start time: 09:39:44 PM, 07 December 2022)

Which of the following model states that attention is a lower level process?

Select the correct option

<input type="radio"/>	Norman's model
<input type="radio"/>	Late selection model
<input type="radio"/>	Sperling's model
<input checked="" type="radio"/>	Early selection model

correct 

Question # 3 of 10 (Start time: 09:38:43 PM, 07 December 2022)

Total Marks: 1

Which of the following was among the first to apply behavioral models to the treatment of mental illnesses and also used the term "reciprocal inhibitions"?

▶ Select the correct option

<input type="radio"/>	J.B. Watson
<input type="radio"/>	Joseph Wolpe
<input type="radio"/>	Ivan Pavlov
<input type="radio"/>	B.F. Skinner

correct 

Question # 9 of 10 (**start time: 09:33:32 PM, 07 December 2022**)

The field of ontology deals with the study of conceptions of:

Select the correct option

<input checked="" type="radio"/>	Thinking
<input type="radio"/>	Behavior
<input type="radio"/>	Action
<input type="radio"/>	Reality

PSY504 - Cognitive Psychology (Quiz 1)

Question # 10 of 10 (start time: 09:34:23 PM, 07 December 2022)

Attention plays an important role in which one of the following processes?

Select the correct option

<input checked="" type="radio"/>	Selection of Information from the environment correct 
<input type="radio"/>	Suppression
<input type="radio"/>	Unconscious processing
<input type="radio"/>	In-depth processing

Question # 1 of 10 (Start time: 09:38:04 PM, 07 December 2022)

Total

What kind of studies have allowed psychologists to design split brain experiments and have made us aware of the differences between the right and the left hemispheres of the brain?

Select the correct option

- | | |
|----------------------------------|------------------------------------|
| <input checked="" type="radio"/> | Brain-injured human studies |
| <input type="radio"/> | Neuro-Imaging studies |
| <input type="radio"/> | Surgery studies |
| <input type="radio"/> | Magnetic Resonance Imaging studies |
- correct** 

Question # 5 of 10 (Start time: 09:29:58 PM, 07 December 2022)

Total Marks: 1

Criticism of which of the following techniques led psychology to its opposite extreme and the behavioral school took over?

Select the correct option

<input type="radio"/>	Study of unconscious
<input checked="" type="radio"/>	Introspection correct 
<input type="radio"/>	Catharsis
<input type="radio"/>	Free association

PSY504 - Cognitive Psychology (Quiz 1)

Question # 5 of 10 (Start time: 09:16:57 PM, 07 December 2022)

At what point the visual information from two eyes is combined?

Select the correct option

<input type="radio"/>	Retina
<input type="radio"/>	Cornea
<input checked="" type="radio"/>	Optic chlasma correct 
<input type="radio"/>	Optic nerve

Question # 2 of 10 (**Start time: 09:13:42 PM, 07 December 2022**)

Who presented the Capacity Model of Attention?

Select the correct option

<input type="radio"/>	Donald Broadbent
<input type="radio"/>	David Triesman
<input type="radio"/>	Daniel Broadbent
<input checked="" type="radio"/>	Daniel Kahneman correct 

PSY504 - Cognitive Psychology (Quiz 1)

Question # 3 of 10 (Start time: 09:14:30 PM, 07 December 2022)

Which one of the following theorists worked on attention and visual perception?

Select the correct option

- Donald Broadbent
correct 
- Alfred Adler
- Titchener
- Wilhelm Wundt

Question # 4 of 10 (Start time: 09:15:48 PM, 07 December 2022)

Iconic memory is related to which of the following?

Select the correct option

<input type="radio"/>	Smell
<input type="radio"/>	Touch
<input type="radio"/>	Taste
<input checked="" type="radio"/>	Vision correct 

Question # 10 of 10 (start time: 09:11:14 PM, 07 December 2022)

Numerous metaphors can help us to think about the limited-resource characteristics of:

Select the correct option

- | | |
|----------------------------------|------------|
| <input type="radio"/> | Noise |
| <input type="radio"/> | Touching |
| <input checked="" type="radio"/> | Attention |
| <input type="radio"/> | Perception |
- correct** 

Question # 8 of 10 (Start time: 09:09:58 PM, 07 December 2022)

Which of the following book was written by B. F skinner?

Select the correct option

<input type="radio"/>	Survival of the Fittest
<input checked="" type="radio"/>	Verbal Behavior correct 
<input type="radio"/>	Tomorrow Is Ours
<input type="radio"/>	Cognitive Psychology

PSY504 - Cognitive Psychology (Quiz 1)

Question # 7 of 10 (Start time: 09:09:24 PM, 07 December 2022)

The sensory store is particularly visual in character and is sensitive to:

Select the correct option

<input checked="" type="radio"/>	Light correct 
<input type="radio"/>	Darkness
<input type="radio"/>	Judgment
<input type="radio"/>	Colors

Question # 1 of 10 (**Start time: 09:05:09 PM, 07 December 2022**)

Sperling's experiments indicate the existence of a brief:

Select the correct option

<input type="radio"/>	Audio sensory store
<input type="radio"/>	Kinesthetic sensory store
<input checked="" type="radio"/>	Visual sensory store correct 
<input type="radio"/>	Tactual sensory store

Question # 2 of 10 (Start time: 09:05:45 PM, 07 Dec 2020)

Who proposed the Opposite Model?

Select the correct option

<input type="radio"/>	Treisman
<input checked="" type="radio"/>	Norman correct 
<input type="radio"/>	Wedderburn
<input type="radio"/>	Gray

PSY504 - Cognitive Psychology (Quiz 1)

Question # 4 of 10 (start time: 09:06:50 PM, 07 December 2022)

Analyze which of the following statement is NOT TRUE.

Select the correct option

- | | |
|----------------------------------|---|
| <input type="radio"/> | Short-term memory and sensory register is the same thing |
| <input type="radio"/> | Senses receive information according to their needs |
| <input checked="" type="radio"/> | Short-term memory and sensory register are two different concepts |
| <input type="radio"/> | You may switch attention based on past experiences |

Question # 9 of 10 (Start time: 04:53:38 PM, 14 D

Voice is actually a/an:

Select the correct option

<input type="radio"/>	Animal sound
<input checked="" type="radio"/>	Human sound correct 
<input type="radio"/>	Language
<input type="radio"/>	Any sound

Question # 8 of 10 (start time: 04:52:55 PM, 14 December 2022)

Which of following model better explains speech pattern recognition phenomenon?

Select the correct option

<input type="radio"/>	Phonemes
<input type="radio"/>	Place of articulation
<input checked="" type="radio"/>	Feature analysis correct 
<input type="radio"/>	Voicing

Question # 7 of 10 (Start time: 04:52:12 PM, 14 December 2022)

Total Marks: 1

In an experiment while measuring reaction time, pairs of words are presented simultaneously to both ears through which of the following device?

Select the correct option

 Reload Math Equations

- | | |
|----------------------------------|---------------|
| <input type="radio"/> | Walkie-talkie |
| <input checked="" type="radio"/> | Headphones |
| <input type="radio"/> | Loud speaker |
| <input type="radio"/> | Mike |
- correct** 

PSY504 - Cognitive Psychology (Quiz 02)

Question # 8 of 10 (Start time: 04:51:25 PM, 14 December 2022)

In the selective listening task, there are _____ voices in both ears.

Select the correct option

<input type="radio"/>	All
<input checked="" type="radio"/>	Different correct 
<input type="radio"/>	Similar
<input type="radio"/>	No

Question # 5 of 10 (Start time: 04:49:55 PM, 14 December 2022)

Total Marks: 1

The notion that patterns are matched to internal constructs before being recognized is referred to as which of the following?

▶ Select the correct option

<input type="radio"/>	Construct matching
<input type="radio"/>	A Biederman template
<input type="radio"/>	Object matching
<input type="radio"/>	Template matching

correct  not sure

Question # 4 of 10 (start time: 04:49:25 PM, 14 December 2022)

Which of the following learning occurs when we are deliberately trying to learn?

Select the correct option

<input type="radio"/>	Incidental Learning
<input type="radio"/>	Latent Learning
<input type="radio"/>	Apparent Learning
<input checked="" type="radio"/>	Intentional Learning

correct 

Question # 3 of 10 (Start time: 04:48:16 PM, 14 December 2022)

Which of the following is a great source of experiments for Cognitive Psychologists?

Select the correct option

<input type="radio"/>	Letters
<input type="radio"/>	Confusions
<input checked="" type="radio"/>	Speeches correct 
<input type="radio"/>	Voices

Question # 2 of 10 (start time: 04:47:40 PM, 14 December 2022)

Most of the research in pattern recognition has been focused on _____ recognition.

Select the correct option

<input type="radio"/>	Image
<input checked="" type="radio"/>	Letter correct 
<input type="radio"/>	Word
<input type="radio"/>	Phrase

Question # 1 of 10 (Start time: 04:47:21 PM, 14 December 2022)

Recognition of language is related with it's _____.

Select the correct option

<input type="radio"/>	Lucidity
<input checked="" type="radio"/>	Features correct 
<input type="radio"/>	Ability
<input type="radio"/>	Clarity

Question # 10 of 10 (**Start time: 04:27:52 PM, 14 December 2022**)

Kahneman, Ben-Ishai & Lotan (1973) studied:

Select the correct option

<input type="radio"/>	Engineers
<input checked="" type="radio"/>	Bus drivers correct 
<input type="radio"/>	Doctors
<input type="radio"/>	Teachers

Question # 9 of 10 (Start time: 04:26:18 PM, 14 December 2022)

Total Marks

In an experiment performed by Schneider and his colleagues (1982) which one of the following task was found to be intentional?

▶ Select the correct option

- | | |
|----------------------------------|--------------------|
| <input type="radio"/> | Coloring |
| <input type="radio"/> | Detecting a letter |
| <input checked="" type="radio"/> | Detecting a number |
| <input type="radio"/> | Reading paragraphs |
- correct** 

Question # 8 of 10 (Start time: 04:25:55 PM, 14 December 2022)

Total Marks: 1

Kinney, Marsetta, & Showman, (1966) conducted an experiment in which the subjects made how many errors when the letter G was presented?

Select the correct option

- | | |
|----------------------------------|-----------|
| <input type="radio"/> | 17 errors |
| <input checked="" type="radio"/> | 29 errors |
| <input type="radio"/> | 28 errors |
| <input type="radio"/> | 20 errors |
- correct** 

PSY504 - Cognitive Psychology (Quiz 02)

Question # 7 of 10 (Start time: 04:24:49 PM, 14 December 2022)

A series of how many experiments were conducted to test the Multi Mode Theory?

Select the correct option

4

2

5

correct 

8

Question # 6 of 10 (Start time: 04:23:14 PM, 14 December 2022)

Template matching model has been studied mainly for what?

▶ Select the correct option

<input type="radio"/>	Similar words in meaning
<input type="radio"/>	Phrases and phonics
<input checked="" type="radio"/>	Letters and words correct  nit sure
<input type="radio"/>	Perceptual organization

Question # 5 of 10 (Start time: 04:21:11 PM, 14 December 2022)

A criticism of template matching relates to the notion that it may be impossible due to what?

▶ Select the correct option

- | | |
|-----------------------|--|
| <input type="radio"/> | Generalization issues |
| <input type="radio"/> | The small number of templates required |
| <input type="radio"/> | Recognition components |
| <input type="radio"/> | The large number of templates required |

Question # 3 of 10 (Start time: 04:19:57 PM, 14 December 2022)

Who proposed five criteria to distinguish between automatic and controlled or effortful processes?

Select the correct option

<input type="radio"/>	Norman
<input checked="" type="radio"/>	Hasher & Zacks
<input type="radio"/>	Triesman
<input type="radio"/>	Springler

correct 

Question # 4 of 10 (Start time: 04:20:42 PM, 14 December 2022)

Hasher & Zacks (1979) proposed how many criterias to distinguish between automatic and controlled or effortful processes?

Select the correct option

<input type="radio"/>	Three
<input type="radio"/>	Four
<input checked="" type="radio"/>	Five
<input type="radio"/>	Two

correct 

PSY504 - Cognitive Psychology (Quiz 02)

Question # 2 of 10 (Start time: 04:18:34 PM, 14 December 2022)

Which of the following learning occurs when we are NOT trying to learn?

Select the correct option

<input type="radio"/>	Latent Learning
<input checked="" type="radio"/>	Incidental Learning correct 
<input type="radio"/>	Apparent Learning
<input type="radio"/>	Intentional Learning

Question # 1 of 10 (Start time: 04:18:14 PM, 14 December

Task difficulty decreases with:

Select the correct option

<input type="radio"/>	Recalling
<input checked="" type="radio"/>	Practice correct 
<input type="radio"/>	Learning
<input type="radio"/>	Recognizing

Question # 10 of 10 (Start time: 04:14:05 PM, 14 December 2022)

How people perceive a well-organized pattern or whole, instead of many separate parts, is a topic of interest in:

▶ Select the correct option

Existential psychology

Gestalt psychology

correct 

Humanistic psychology

Behavioral psychology

Question # 9 of 10 (Start time: 04:13:27 PM, 14 Decer

Constructing a new thing is:

Select the correct option

<input type="radio"/>	Pattern recalling
<input type="radio"/>	Perception recognition
<input type="radio"/>	Pattern rearrangement
<input checked="" type="radio"/>	Pattern recognition correct 

Question # 8 of 10 (start time: 04:12:58 PM, 14 December 2022)

Who initially talked about Judging Frequency?

Select the correct option

<input checked="" type="radio"/>	Hasher & Zacks correct 
<input type="radio"/>	Lotan & Barrett
<input type="radio"/>	Lotan & Lotan
<input type="radio"/>	Mihal & Barrett

Question # 7 of 10 (start time: 04:11:33 PM, 14 December 2022)

Human speech is much more complex than the perception of _____ material.

▶ Select the correct option

<input checked="" type="radio"/>	Written
<input type="radio"/>	Spoken
<input type="radio"/>	Heard
<input type="radio"/>	Visual

correct 

Question # 4 of 10 (Start time: 04:10:04 PM, 14 December 2022)

Who conducted experiments for predicting flight performance?

Select the correct option

<input type="radio"/>	Lotan & Lotan (1982)
<input type="radio"/>	Mihal & Barrett (1976)
<input type="radio"/>	Lotan & Barrett (1989)
<input checked="" type="radio"/>	Gopher & Kahneman (1971) correct 

Question # 5 of 10 (start time: 04:10:36 PM, 14 December 2022)

Total Marks: 1

Shiffrin and Schneider (1977) ran an experiment in which the target always came from one set of letters. These target letters were:

Select the correct option

BCDFJKLP

BCDFGHMP

BCDFGHJKL

correct 

CDFGHJKL

Question # 6 of 10 (Start time: 04:11:11 PM, 14 December 2022)

Gopher and Kahneman tested how many cadets in Israeli Air Force to predict flight performance?

Select the correct option

<input checked="" type="radio"/>	100	correct 
<input type="radio"/>	150	
<input type="radio"/>	700	
<input type="radio"/>	1000	

PSY504 - Cognitive Psychology (Quiz 02)

Question # 3 of 10 (Start time: 04:08:34 PM, 14 December 2022)

Which one of the following has been talked about in model of sharing ?

▶ Select the correct option

<input type="radio"/>	Template matching
<input type="radio"/>	Adaptation paradigm
<input type="radio"/>	Feature analysis correct  not sure
<input type="radio"/>	Place of articulation

Question # 2 of 10 (**start time: 04:08:06 PM, 14 December 2022**)

In which model, Stimuli are thought of as combination of elemental or primitive features?

Select the correct option

<input type="radio"/>	Visual feature
<input checked="" type="radio"/>	Feature analysis
<input type="radio"/>	Template matching
<input type="radio"/>	Specific feature

correct 

Question # 1 of 10 (Start time: 04:07:02 PM, 14 December 2022)

Total Marks:

Kahneman, Ben-Ishai & Lotan (1973) found that selective listening task had a _____ correlation with driver safety.

Select the correct option

<input type="radio"/>	No
<input type="radio"/>	Zero
<input type="radio"/>	Negative
<input checked="" type="radio"/>	High

correct 

PSY504 - Cognitive Psychology (Quiz 02)

Question # 10 of 10 (start time: 08:27:47 PM, 14 December 2022)

Which of following phenomenon was studied by Wegner and colleagues (1987)?

Select the correct option

<input checked="" type="radio"/>	Thought suppression & expression correct 
<input type="radio"/>	Information
<input type="radio"/>	Correlation
<input type="radio"/>	Regression

Question # 6 of 10 (Start time: 08:25:52 PM, 14 December 2022)

Which of the following is true about Automatic Processes?

▶ Select the correct option

<input type="radio"/>	Automatic processes show little change with age	correct 
<input type="radio"/>	Automatic processes get effected by emotions	
<input type="radio"/>	Automatic processes involve no practice initially	
<input type="radio"/>	Automatic processes change with passage of time	

Question # 5 of 10 (**Start time: 08:24:25 PM, 14 December 2022**)

Gestalt psychology is a German school founded by:

▶ **Select the correct option**

<input type="radio"/>	Kurt Lewin
<input type="radio"/>	Wolfgang Kohler
<input type="radio"/>	R. H. Wheeler
<input type="radio"/>	Max Wertheimer correct 

Question # 9 of 10 (Start time: 08:19:29 PM, 14 December 2022)

Which of the following is a great source of experiments for Cognitive Psychologists?

Select the correct option

<input type="radio"/>	Confusions
<input checked="" type="radio"/>	Speeches correct 
<input type="radio"/>	Letters
<input type="radio"/>	Voices

Question # 10 of 10 (Start time: 08:20:17 PM, 14 December 2022)

_____ are labiodentals because the bottom lip is pressed against the front teeth.

Select the correct option

<input type="radio"/>	m and w
<input type="radio"/>	a and t
<input checked="" type="radio"/>	f and v correct 
<input type="radio"/>	b and p

Question # 3 of 10 (Start time: 08:22:27 PM, 14 December 2022)

Who proposed five criteria to distinguish between automatic and controlled or effortful processes?

Select the correct option

<input type="radio"/>	Norman
<input checked="" type="radio"/>	Hasher & Zacks correct 
<input type="radio"/>	Springler
<input type="radio"/>	Triesman

Question # 8 of 10 (start time: 08:18:38 PM, 14 December 2022)

Total Marks: 1

Amna brings a lot of things from the market and then she makes a pizza from them. This is an example of which one of the following?

Select the correct option

- | | |
|----------------------------------|--|
| <input checked="" type="radio"/> | Whole is different from sum of its parts |
| <input type="radio"/> | We perceive things as individual parts |
| <input type="radio"/> | We are keenly observant of the world around us |
| <input type="radio"/> | We make mental images in our mind |
- correct** 

Question # 7 of 10 (start time: 08:17:28 PM, 14 December 2022)

Total Marks: 1

The notion that patterns are matched to internal constructs before being recognized is referred to as which of the following?

Select the correct option

- | | |
|----------------------------------|----------------------|
| <input type="radio"/> | A Blederman template |
| <input type="radio"/> | Construct matching |
| <input checked="" type="radio"/> | Template matching |
| <input type="radio"/> | Object matching |
- correct** 

PSY504 - Cognitive Psychology (Quiz 02)

Question # 6 of 10 (start time: 08:16:54 PM, 14 December 2022)

Whose study reported that "Practice affects attentional limitations"?

Select the correct option

Shiffrin & Dumais (1982)

Underwood (1974)

correct 

Schneider & Shiffrin (1977)

Schneider & Fisk (1982)

Question # 4 of 10 (Start time: 08:15:06 PM, 14 December 2022)

Every theory predicts some phenomenon and we test these predictions through _____.

Select the correct option

- | | |
|----------------------------------|--------------|
| <input type="radio"/> | Descriptions |
| <input type="radio"/> | Observations |
| <input checked="" type="radio"/> | Experiments |
| <input type="radio"/> | Assumptions |
- correct 

PSY504 – Cognitive Psychology (Quiz 02)

Question # 5 of 10 (**start time: 08:16:05 PM, 14 E**

Gestalt is a word of:

Select the correct option

<input type="radio"/>	Latin language
<input type="radio"/>	Greek language
<input type="radio"/>	Persian language
<input checked="" type="radio"/>	German language correct 

Question # 4 of 10 (start time: 08:15:06 PM, 14 December 2022)

Every theory predicts some phenomenon and we test these predictions through _____.

Select the correct option

- | | |
|----------------------------------|--------------|
| <input type="radio"/> | Descriptions |
| <input type="radio"/> | Observations |
| <input checked="" type="radio"/> | Experiments |
| <input type="radio"/> | Assumptions |
- correct* 

Question # 2 of 10 (start time: 08:14:26 PM, 14 Dec 2021)

Constructing a new thing is:

Select the correct option

<input type="radio"/>	Pattern recalling
<input type="radio"/>	Pattern rearrangement
<input checked="" type="radio"/>	Pattern recognition correct 
<input type="radio"/>	Perception recognition

PSY504 - Cognitive Psychology (Quiz 02)

Question # 1 of 10 (Start time: 08:13:55 PM, 14 December 2022)

Gopher and Kahneman experiment involved _____ groups of cadets.

Select the correct option

<input type="radio"/>	Four
<input checked="" type="radio"/>	Three correct 
<input type="radio"/>	Two
<input type="radio"/>	Five

Question # 9 of 10 (Start time: 08:04:06 PM, 14 December 2022)

Which of the following language in sub-continent uses the tone to generate different meanings?

Select the correct option

<input type="radio"/>	Marathi
<input type="radio"/>	Persian
<input type="radio"/>	Hindi
<input checked="" type="radio"/>	Punjabi

correct 

Question # 10 of 10 (start time: 08:05:03 PM, 14 December 2022)

Which of the following means "whole" in German language?

Select the correct option

<input type="radio"/>	Ach so
<input type="radio"/>	Gestalten
<input type="radio"/>	Achli bedekh
<input checked="" type="radio"/>	Gestalt correct 

Question # 8 of 10 (start time: 08:03:04 PM, 14 December 2022)

Total Marks: 1

Which of the following task typically measures how quickly people can react to target stimulus in order to evaluate the capacity demands of the primary task?

Select the correct option

<input type="radio"/>	Reaction time
<input type="radio"/>	Capacity task
<input type="radio"/>	Reaction task
<input checked="" type="radio"/>	Subsidiary task

correct 

Question # 7 of 10 (Start time: 08:02:41 PM, 14 December 2022)

Who conducted experiments for predicting flight performance?

Select the correct option

<input type="radio"/>	Lotan & Lotan (1982)
<input checked="" type="radio"/>	Gopher & Kahneman (1971) correct 
<input type="radio"/>	Lotan & Barrett (1989)
<input type="radio"/>	Mihal & Barrett (1976)

Question # 5 of 10 (start time: 08:02:08 PM, 14 December 2022)

Total Marks: 1

Which of the following refers to the place at which the vocal track is closed or constricted in the production of a phoneme?

Select the correct option

<input checked="" type="radio"/>	Place of articulation
<input type="radio"/>	Voicing
<input type="radio"/>	Epiglottis
<input type="radio"/>	Glottis

correct

PSY504 - Cognitive Psychology (Quiz 02)

Question # 2 of 10 (Start time: 07:59:09 PM, 14 December 2022)

The time that subjects take to respond to a stimulus is called _____

Select the correct option

<input type="radio"/>	Time frame
<input type="radio"/>	Experimental design
<input checked="" type="radio"/>	Reaction time correct 
<input type="radio"/>	Experiment

Question # 3 of 10 (Start time: 08:00:15 PM, 14 December 2022)

Analyze when a skill is NOT automatic?

Select the correct option

Do not interfere with other mental activities

Occurs with intention

correct 

Occurs without intention

No rise to conscious awareness

Question # 4 of 10 (Start time: 08:01:27 PM, 14 December 2022)

Eimas & Corbitt (1973) conducted an experiment that is called:

Select the correct option

<input type="radio"/>	Feature analysis
<input type="radio"/>	Place of articulation
<input type="radio"/>	Template matching
<input checked="" type="radio"/>	Adaptation paradigm correct 

Question # 1 of 10 (start time: 07:58:55 PM, 14 December 2022)

Voicing is feature or sound of phonemes produced by the vibration of the _____.

Select the correct option

<input type="radio"/>	Tongue
<input type="radio"/>	Palate
<input type="radio"/>	Lips
<input checked="" type="radio"/>	Vocal cords correct 

Question # 9 of 10 (Start time: 07:50:05 PM, 14 December 2022)

A model in which the internal representation of a pattern is structurally similar to the stimulus pattern is called:

▶ Select the correct option

<input type="radio"/>	Template matching model
<input type="radio"/>	Feature analysis model
<input type="radio"/>	Specific feature model
<input type="radio"/>	Visual feature model

correct  not sure

Question # 7 of 10 (Start time: 07:42:21 PM, 14 December 2022)

Effortful processes require considerable:

Select the correct option

<input type="radio"/>	Recalling
<input type="radio"/>	Performing
<input type="radio"/>	Practice
<input checked="" type="radio"/>	Capacity correct 

Question # 6 of 10 (Start time: 07:41:00 PM, 14 December 2022)

"We need a template for each possible sound." This is the idea of which of the following?

▶ Select the correct option

<input type="radio"/>	Feature analysis
<input type="radio"/>	Place of articulation
<input type="radio"/>	Adaptation paradigm
<input type="radio"/>	Template matching

correct  not sure

Question # 5 of 10 (Start time: 07:40:34 PM, 14 December 2022)

Which task has a high correlation with driver safety?

Select the correct option

<input checked="" type="radio"/>	Selective Listening Task correct  not sure
<input type="radio"/>	Auditory Task
<input type="radio"/>	Visual Task
<input type="radio"/>	Performing Task

Question # 1 of 10 (Start time: 07:37:24 PM, 14 December 2022)

If you act without any particular attention, which kind of act a cognitive psychologist would consider it?

Select the correct option

<input type="radio"/>	Learned
<input type="radio"/>	Innate
<input type="radio"/>	Environmental
<input checked="" type="radio"/>	Automatic

correct 

Question # 10 of 10 (start time: 07:18:42 PM, 14 December 2022)

Mihal & Barrett (1976) used how many tests to predict accident involvement of commercial drivers?

Select the correct option

- | | |
|----------------------------------|--|
| <input type="radio"/> | Ten |
| <input checked="" type="radio"/> | Seven correct  |
| <input type="radio"/> | Six |
| <input type="radio"/> | Five |

PSY504 - Cognitive Psychology (Quiz 02)

Question # 8 of 10 (start time: 07:17:08 PM, 14 December 2022)

Which one of the following is NOT a Gestalt law of perceptual organization?

 Select the correct option

Parsing

correct 

Proximity

Similarity

Common fate

Question # 6 of 10 (Start time: 07:15:56 PM, 14 December 2022)

Total Marks: 1

Which of the following refers to the place at which the vocal track is closed or constricted in the production of a phoneme?

Select the correct option

<input type="radio"/>	Epiglottis
<input checked="" type="radio"/>	Place of articulation
<input type="radio"/>	Voicing
<input type="radio"/>	Glottis

correct 

Question # 5 of 10 (Start time: 07:15:06 PM, 14 December 2022)

Native speakers of a language always _____ words together in their speeches.

Select the correct option

<input type="radio"/>	Speak
<input checked="" type="radio"/>	Mix correct 
<input type="radio"/>	Differentiate
<input type="radio"/>	Generalize

Question # 4 of 10 (start time: 07:14:38 PM, 14 December 2022)

Which of the following feature or sound of phonemes is produced by the vibration of the vocal cords?

Select the correct option

<input type="radio"/>	Words
<input checked="" type="radio"/>	Voicing correct 
<input type="radio"/>	Phonemes
<input type="radio"/>	Tone

Question # 2 of 10 (Start time: 07:13:42 PM, 14 December 2022)

Who gave the idea that unified whole is different from its parts?

Select the correct option

<input checked="" type="radio"/>	Gestalt theory of perception correct 
<input type="radio"/>	Gestalt theory of observation
<input type="radio"/>	Gestalt theory of attention
<input type="radio"/>	Gestalt theory of feature detection

Question # 1 of 10 (Start time: 07:13:20 PM, 14 December 2022)

Total Marks: 1

Kinney, Marsetta, & Showman, (1966) conducted an experiment in which they presented letters for very ----- intervals.

Select the correct option

<input type="radio"/>	Fixed
<input type="radio"/>	Indefinite
<input type="radio"/>	Long
<input checked="" type="radio"/>	Brief

correct 

Question # 9 of 10 (Start time: 09:28:06 PM, 14 December 2022)

In which model, Stimuli are thought of as combination of elemental or primitive features?

Select the correct option

- | | |
|----------------------------------|--|
| <input type="radio"/> | Specific feature |
| <input type="radio"/> | Template matching |
| <input checked="" type="radio"/> | Feature analysis: correct  |
| <input type="radio"/> | Visual feature |

Question # 5 of 10 (Start time: 09:27:05 PM, 14 December 2022)

Hasher & Zacks (1979) proposed how many criterias to distinguish between automatic and controlled or effortful processes?

Select the correct option

<input type="radio"/>	Two
<input type="radio"/>	Three
<input type="radio"/>	Four
<input checked="" type="radio"/>	Five

correct 

Question # 2 of 10 (Start time: 09:28:13 PM, 14 December 2022)

In unvoiced consonants such as [p], the release occurs _____ before the vibration begins.

Select the correct option

<input type="radio"/>	40 ms
<input type="radio"/>	30 ms
<input checked="" type="radio"/>	60 ms
<input type="radio"/>	80 ms

correct 

Question # 4 of 10 (Start time: 09:21:34 PM, 14 December 2022)

Which of the following assumes that a retinal image of an object is faithfully transmitted to the brain?

Select the correct option

<input type="radio"/>	Law of proximity
<input type="radio"/>	Information processing
<input type="radio"/>	Law of similarity
<input checked="" type="radio"/>	Template matching

correct 

Question # 8 of 10 (start time: 09:22:43 PM, 14 December 2022)

Total Marks: 1

Kahneman, Ben-Ishai & Lotan (1973) found that selective listening task had a _____ correlation with driver safety.

Select the correct option

<input checked="" type="radio"/>	High
<input type="radio"/>	No
<input type="radio"/>	Negative
<input type="radio"/>	Zero

correct 

Question # 10 of 10 (start time: 09:23:26 PM, 14 December 2022)

Who gave the idea that unified whole is different from its parts?

Select the correct option

<input type="radio"/>	Gestalt theory of attention
<input checked="" type="radio"/>	Gestalt theory of perception correct 
<input type="radio"/>	Gestalt theory of feature detection
<input type="radio"/>	Gestalt theory of observation

PSY504 - Cognitive Psychology (Quiz 02)

Question # 9 of 10 (**start time: 09:17:54 PM, 14 December 2022**)

Which of the following helps in learning well?

Select the correct option

<input type="radio"/>	Reciting
<input checked="" type="radio"/>	Practice correct 
<input type="radio"/>	Recalling
<input type="radio"/>	Remembering

Question # 5 of 10 (start time: 09:14:27 PM, 14 December 2022)

The problem of how various elements are organized into wholes was the central theme for:

Select the correct option

- | | |
|----------------------------------|---|
| <input type="radio"/> | Structuralism |
| <input type="radio"/> | Functionalism |
| <input checked="" type="radio"/> | Gestalt psychology
correct  |
| <input type="radio"/> | Behaviourism |

Question # 4 of 10 (**Start time: 09:13:36 PM, 14 December 2022**)

Who conducted a series of experiments contrasting controlled vs. automatic processing?

Select the correct option

<input type="radio"/>	B.F. Skinner
<input type="radio"/>	Albert Bandura
<input checked="" type="radio"/>	Schneider & Fisk correct 
<input type="radio"/>	J.B. Watson

Question # 10 of 10 (Start time: 09:42:08 PM, 14 December 2022)

Total

In an experiment performed by Schneider and his colleagues (1982) which one of the following task was found to be intentional?

Select the correct option

- | | |
|----------------------------------|--------------------|
| <input type="radio"/> | Detecting a letter |
| <input checked="" type="radio"/> | Detecting a number |
| <input type="radio"/> | Reading paragraphs |
| <input type="radio"/> | Coloring |

correct 

BC210407350; NIMRA KHALID

PSY504 - Cognitive Psychology (Quiz 02)

Quiz Start

Question # 8 of 10 (Start time: 09:39:57 PM, 14 December 2022)

Which of the following is included in the benefits of automatic skill?

Select the correct option

<input type="radio"/>	We are not able to show others how we do a task
<input type="radio"/>	We may fail to remember what we did
<input type="radio"/>	We may make silly mistakes
<input checked="" type="radio"/>	It allows us to perform routine activities without much concentration or mental effort

correct 

BC210407350: NIMRA KHALID

PSY504 - Cognitive Psychology (Quiz 02)

Question # 7 of 10 (start time: 09:39:41 PM, 14 December 2022)

"We need a template for each possible sound." This is the idea of which of the following?

Select the correct option

<input checked="" type="radio"/>	Template matching correct  not sure
<input type="radio"/>	Adaptation paradigm
<input type="radio"/>	Feature analysis
<input type="radio"/>	Place of articulation

Question # 6 of 10 (Start time: 09:39:26 PM, 14 December 2022)

Total Marks: 1

Kahneman, Ben-Ishai & Lotan (1973) found that selective listening task had a _____ correlation with driver safety.

Select the correct option

<input type="radio"/>	Zero
<input checked="" type="radio"/>	High correct 
<input type="radio"/>	No
<input type="radio"/>	Negative

Question # 5 of 10 (start time: 09:38:24 PM, 14 December 2022)

Result of subsidiary tasks indicated that when NO list was given the reaction time was -----

Select the correct option

<input type="radio"/>	440 ms
<input type="radio"/>	110 ms
<input checked="" type="radio"/>	310 ms
<input type="radio"/>	210 ms

correct 

Question # 4 of 10 (Start time: 09:36:47 PM, 14 December 2022)

Total Marks: 1

According to Wegner and colleague's concept of "suppression", analyze which of the following statement is TRUE?

▶ Select the correct option

- | | |
|-----------------------|--|
| <input type="radio"/> | Do not think of a "white bear" |
| <input type="radio"/> | White bears are beautiful |
| <input type="radio"/> | Selective listening has high correlation with drive safely |
| <input type="radio"/> | Selective listening improves flight performance |
- correct** 

Question # 3 of 10 (Start time: 09:36:34 PM, 14 December 2022)

Who conducted a series of experiments contrasting controlled vs. automatic processing?

Select the correct option

- | | |
|----------------------------------|--|
| <input checked="" type="radio"/> | Schneider & Fisk
correct  |
| <input type="radio"/> | Albert Bandura |
| <input type="radio"/> | J.B. Watson |
| <input type="radio"/> | B.F. Skinner |

Question # 2 of 10 (start time: 09:35:59 PM, 14 December 2022)

Total Marks: 1

Shiffrin and Schdeider (1977) ran an experiment in which the target always came from one set of letters. These target letters were:

Select the correct option

<input type="radio"/>	CDFGHJKL
<input checked="" type="radio"/>	BCDFGHJKL
<input type="radio"/>	BCDFJKLP
<input type="radio"/>	BCDFGHMP

correct 

PSY504 - Cognitive Psychology (Quiz 02)

Question # 1 of 10 (Start time: 09:35:41 PM, 14 December 2022)

Effortful processes require considerable:

Select the correct option

<input checked="" type="radio"/>	Capacity correct 
<input type="radio"/>	Performing
<input type="radio"/>	Practice
<input type="radio"/>	Recalling
