[7/22, 1:09 PM] It601

- 1-working of OSI layer
- 2-statements is written analysis and tell about 3-which type of scaling technique is?
- 4-Simple service and complex service
- 5-Non-Raid Approaches
- 6- Benifits of DevOps.
- 7- Difference between Drop and Reject Targets

[7/22, 1:09 PM] It601 8:00am

- Mcqs were Conceptual
- Short
- 3 scenario base questions the.
- Non-raid examples
- Open or closed Architecture
- Long
- Nfsv4 advancements
- Services plans
- Support document plans

[7/22, 9:50 PM] It601

- 1-working of OSI layer
- 2-statements is written analysis and tell about 3-which type of scaling technique is?
- 4-Simple service and complex service
- 5-Non-Raid Approaches
- 6- Benifits of DevOps.
- 7- Difference between Drop and Reject Targets

[7/28, 11:35 AM] IT601

- 1.IP Address given thy classes batani thi .
- 2.Two type of out -of - band batani thin .
- 3.Write down the types of IT service I think . IT service say related tha .
- 4.Simple service and complex service ka difference .
- 4 say 5 question scenario based thy long MN bhi aur short MN bhi
- 5. Issues come due tu misbehavior of NFS yh long MN tha .
- 6. MCQS kafi muskhil thy address aur classes pochi thi

[7/28, 11:36 AM] It601 8:00am

- Mcqs were Conceptual
- Short
- 3 scenario base questions the.
- Non-raid examples
- Open or closed Architecture
- Long
- Nfsv4 advancements
- Services plans
- Support document plans

[7/28, 11:36 AM] IT601

- 1-working of OSI layer
- 2-statements is written analysis and tell about 3-which type of scaling technique is?
- 4-Simple service and complex service
- 5-Non-Raid Approaches
- 6- Benifits of DevOps.
- 7- Difference between Drop and Reject Targets

[7/28, 4:11 PM] IT601

- 1.IP Address given thy classes batani thi .
- 2.Two type of out -of - band batani thin .
- 3.Write down the types of IT service I think . IT service say related tha .
- 4.Simple service and complex service ka difference .
- 4 say 5 question scenario based thy long MN bhi aur short MN bhi

- 5. Issues come due to misbehavior of NFS yeh long MN tha .
- 6. MCQS kafi mushkil thi address aur classes pochi thi

[7/29, 12:20 PM] IT601 10:00

- Mcqs are easy and from handouts
- ✍️ short question
- Written requirements
- Types of out-of-band management techniques
- Service planning and design
- Tracking software
- Ip-address classes
- Enable configuration
- ✍️ long question
- Service requirements
- Service request model
- Stateless drawback
- Helpdesk
- 🙏 best of luck

[7/30, 9:56 AM] It601

- Mcqs were from slides
- Questions:
- Das, nas and San difference
- Stateless behaviour of NFS
- Drop target and reject target
- 2 questions related to SLA and SRM (service request model)
- Types of out of band management
- 2 Scenario based questions from VPN (virtual private network) topic
- Support plan wala b question tha

[7/30, 11:00 AM] It601

- Objective easy tha pr mujhy ata ni tha
- Questions
- drop target or reject target wala

- Stateless behaviour of NFS
- Das, nas ,sas difference
- SRM (service request model) se related aik long tha
- SLA se related tha
- 2 types of out of band management
- Aik VPM wala question tha scenario based

[7/30, 9:33 PM] It601

- ka subjective kuch behtr I tha kuch qs ajeeb ty scenario me
- Simple vs complex srf ye qs asan tha long me 🤔
- Aik long tha scenario me management sy related khud se vo mne kia he acha sa tha vo qs
- Aik long tha ke mtlb service ko agr launched krna he to konse issue a skty he ajeeb tha ye qs be long me mne b service ke jo plan hen inko scenario se relate kr k likh dia ish me

[7/30, 9:33 PM] It601

- mcqs kuch kuch bot mushkil sy ty r kuch slide sy ty
- Short kuch bethr ty
- Drop reject ka btana tha
- Non raid me jo 3 option he vo btany n+1,n+2,n+r ye
- [7/30, 9:34 PM] Ldap me knse msg kind use oty he ye mgy ni mila
- [7/30, 9:34 PM] Aik tha operational plan ne konse component he
- [7/30, 9:43 PM] Aik qs tha steps ty vusna ko kerberos me configure ke

[7/31, 11:59 AM] IT601 31-07-2024

- 10:00 am
- Mcqs are tough and from handouts
- Shorts
- Importance of annotating written enlisted two.
- Three examples of non-raid options
- What if new Linux system internet connectivity of three virtual machines? Which table will use? Which chain will I use?
- Which encoding scheme use
- Quick reply (text only)
- A large paragraph
- Personal photographs

- How to start with a remote on RPC?
- Not remember
- Long
- Which aspects are support planning?
- Which causes the stateless behaviour of NFS?
- Which aspects are documentation?
- 11011001 1000001 11100011
- Convert it base64 and write all steps
- Best of luck 🍀

[8/1, 1:58 PM] It601 8:00am

- Mcqs were Conceptual
- Short
- 3 scenario based questions the.
- Non-raid examples
- Open or closed Architecture
- Long
- Nfsv4 advancements
- Services plans
- Support document plans

[8/1, 2:07 PM] IT601

1. IP Address given thy classes batani thi .
2. Two type of out-of-band batani thin .
3. Write down the types of IT service I think . IT service say related tha .
4. Simple service and complex service ka difference .
- 4 say 5 question scenario based thy long MN bhi aur short MN bhi
5. Issues come due tu misbehavior of NFS yh long MN tha .
6. MCQS kafi muskil thy address aur classes pochi thi

[8/1, 2:37 PM] It601

- 29 July
- Time 6:30
- Mcqs were from slides
- Questions:

- Das,nas and San difference
- Stateless behaviour of NFS
- Drop target and reject target
- 2 questions related to SLA and SRM (service request model)
- Types of out of band management
- 2 Scenario based questions from VPN (virtual private network) topic

[8/1, 3:15 PM]

- Communication ke liy jo message pass ota h iska name
- Questions.
- 6 benefits of Written requirements.
- 2 protocol of MAP
- Operational plan k components
- Non-Raid 3 examples
- Das,san ,Nas, difference.
- NFS v 4 k 5 feature.
